**ROUND CUT**

*Time tested and proven, classic shape, tuned for destruction, performance and a controlled slide.*

**FUNNEL SHAPE**

*A wider overall width with a conical cut shape, brings more traction and more ground coverage with superior response.*

**ROUND CUT (SLIM)  $\bar{S}$**

*Slightly slimmer version of our standard round cut wheel, a tighter width and skinnier contact patch for a lighter faster wheel.*

**ROUND CUT (FULL)  $\bar{F}$**

*Wide body version of our tried and true Round Cut shape, offering a little more stability and distance with every push.*
